

Information Visualisation Evaluation Tasks – Group 9.

Please answer these questions to the best of your ability. If you have any questions or need help, please ask a member of our team.

Questions for participants:

1. What is the freedom score of the Netherlands?
2. What percentage of the Dutch population has access to electricity?
3. Compare the Netherlands to Brazil and the United States.
 - a) Which of these countries has the highest freedom score?
 - b) Of these three countries, what is the difference (in terms of freedom score) between the country with the highest score and the country with the lowest score?
4. Observe the freedom score of the Netherlands from 2013 to 2016.
 - a) How did the score change through time?
 - b) Which visualisation did you use to inform your answer?
5. Analyse the “Employment” petal of the United States. In which sector are the majority of people employed?
6. Observe the scatter plot for “Employment” in the Netherlands.
 - a) In general, how does the Netherlands compare to all other countries?
 - b) Do you see a correlation between the Employment level in the agricultural sector and the freedom score of countries? How can you tell?
